RE: SUPPORT for SB 802 as Amended 7/13/2021

Dear Chair Gonzalez:

We represent a group of student, veteran, consumer, civil rights, and higher education advocates focused on ensuring that higher education students in California are protected from predatory schools and have access to high quality education that does not leave them with unmanageable debt. Thank you for the opportunity to offer comments relating to SB 802 and the reauthorization of the Bureau of Private Postsecondary Education (Bureau) and the California Private Postsecondary Act of 2009.

The COVID-19 pandemic has had a devastating impact worldwide, and California’s labor market has been significantly impacted.¹ As of May 2021, California had 1.5 million fewer jobs than in February of 2020, a greater job loss than the “Great Recession.”² And the impact of the pandemic was extremely inequitable; despite signs of economic recovery, Black and Latinx Californians are considerably more likely to be out of work one year after the recession began.³ And unfortunately for California’s students, the economic crisis triggered by the pandemic also arrived on the heels of a long period of deregulation of for-profit schools at the federal level.⁴

In the past, the overlap of an economic recession and a loose postsecondary education regulatory environment has led to significant increases in enrollment at for-profit colleges, as predatory programs target the unemployed with aggressive recruiting efforts. From 2007-2010, undergraduate enrollment at for-profit colleges skyrocketed, growing by as much as 19 percent a year in California and 22 percent a year nationally.⁵ Low-income and unemployed individuals were aggressively recruited when the job market dried up, and predatory for-profit

colleges portrayed themselves as an attractive option to many students. But the promises were often too good to be true.

Unfortunately, recent enrollment trends in California are following similar problematic patterns; there have been significant decreases in enrollment at community colleges and other public and nonprofit universities, and more students are enrolling in for-profit institutions.⁶ The most vulnerable students - including veterans, foster youth, students of color, and single mothers - are often targeted by predatory programs, bear a disproportionate risk, and suffer the consequences.⁷ And unfortunately, students at for-profit institutions are less likely to graduate and more likely to have significant debt and default on their loans, compared to their traditional 4-year-degree counterparts.⁸

The Bureau serves an essential function for the state of California, tasked with serving as the first line of defense for students who enroll in private postsecondary programs and the primary state-level regulator of for-profit schools in California. The agency's enacting statute encapsulates the need to prioritize student and consumer needs: "...Protection of the public shall be the bureau's highest priority."⁹ It is therefore not only essential that the Bureau be reauthorized this year, but also that it has the authority, capacity, and funding necessary to carry out its responsibility to protect students.

For the reasons stated above we support SB 802 and urge you to support the bill when it comes before the committee. Thank you again for the opportunity to provide comments, and please feel free to contact Angela Perry at (510) 318-7902 or APerry@TICAS.org with any questions.

Sincerely,
