How Interest Rates Are Determined	Fixed-Rate Loans	All Stafford and PLUS loans originated since July 1, 2006 have fixed rates. Since 2013, fixed rates for new loans are set each year based on the 10-year Treasury note following the May auction (2.94% for 2022-23) plus a set margin of 2.05 percentage points for undergraduate Stafford, 3.60 points for graduate Stafford, and 4.60 points for PLUS loans. Although rates for new loans are set each year, rates are fixed for the life of the loan.
	Variable-Rate Loans	For older Stafford and PLUS loans with variable rates, interest rates change annually on July 1, based on the last 91-day Treasury auction in May.
During Repayment	Rate Reduction for Automatic Electronic Payments	Borrowers can receive a 0.25% interest rate reduction if they sign up for auto-debit payments online.
	Deferments for Unemployment or Economic Hardship	Borrowers may defer payments for up to three years. For Parent PLUS, Grad PLUS, and unsubsidized Stafford Loans, interest continues to accrue. For more about other repayment options, see studentaid.gov .
	Income-Driven Repayment Plans	There are several income-driven repayment plans that can help keep payments manageable by capping them at a set percentage of the borrower's income: Revised Pay As You Earn (REPAYE), Income-Based Repayment (IBR), Pay As You Earn (PAYE), and Income-Contingent Repayment (ICR). Borrowers who make payments based on their income can receive a discharge of any remaining student debt after 20 or 25 years of payments. For more information about these plans and to estimate monthly loan payments, see studentaid.gov/idr .
	Public Service and Teacher Loan Forgiveness	Public Service Loan Forgiveness is available after 10 years of qualifying payments and employment, only for Direct Loans (excluding Parent PLUS). The Teacher Loan Forgiveness Program (Stafford only) is available for loans in both the Direct and FFEL programs. All federal loans issued since July 1, 2010 are Direct Loans. Teachers with Perkins loans may be eligible for a loan cancellation if they meet certain requirements. More information for teachers can be found at studentaid.gov .
	Loan Consolidation	Borrowers with Direct and/or FFEL loans can convert them into a Direct Consolidation loan. There is no fee. Depending on the borrower's total debt, repayment periods can vary from 10 to 30 years. For more information, or to apply online, see studentaid.gov .
